However, in this report, attention items for due monthly session forms will not have client information linked. The report will show each clinician with monthly session data due, but not for each specific client. To see which clients are due for monthly session forms, you will need to click Attention Items under the purple EBP Actions Menu on the left-hand side of PIE.

Then, filter type, and you will get a list of each clinician's monthly session forms. Click Add on the monthly session form you'd like to view, and a list of clients that are in need of monthly session data for that month and clinician will populate.

Lastly, here is the list of clients for this clinician that are due for monthly session data for December 2019. You have the option to add data from this screen.
