

Free training for pediatric health care providers to implement best practices

benefits of training

- Improve the quality of your care
- Earn CME and MOC credits
- Expand the scope of your services
- Connect your patients to high quality resources
- Increase income

how it works

- Sessions are brief (less than an hour)
- Free training in the comfort of your office
- Eat and learn (we bring breakfast or lunch)
- Engage your whole practice team

Educating Practices

Educating Practices brings timely, evidence-based information and materials to providers in a dynamic health care environment. Trainings help providers implement practice changes that are supported by community and state resources. Educating Practices is funded by the Children's Fund of Connecticut (a public charitable foundation), the State of Connecticut, and through grants.
